PREFACE.

The seventh volume of our Fort Wayne and Allen County Directory, herewith presented, has, throughout the canvass, compilation and printing, been watched with the utmost care, in order that the work might truly represent the population of the city and county, and be an honest reflex of the manufacturing, mercantile, professional and agricultural interests of one of the most influential and important cities and counties of Indiana.

That portion of the book devoted to Allen county has been arranged after the most approved manner of compiling county directories. It is believed that the volume contains the name, business and postoffice address of every adult resident of the county.

The city directory proper contains 12,913 names, against 12,000 in our last edition.

For various favors in the form of subscriptions and advertisements, our thanks are extended to the business men of Fort Wayne.

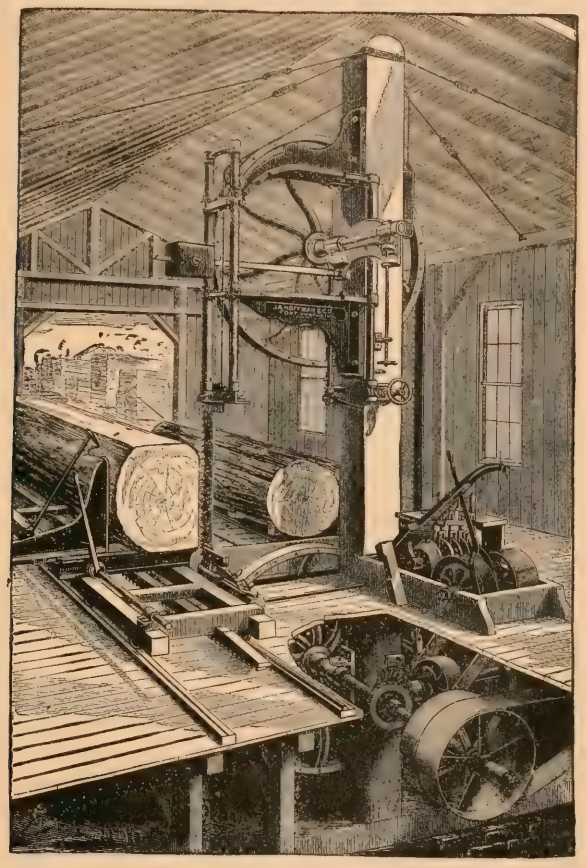
Hoffman's Patent Band Saw Mill

FOR SAWING LOGS.



Among the many advantages this Mill has over Circular and Mulay Mills, we mention:

1st. SAVING OF LUMBER. Ordinary saws cut five-sixteenths of an inch saw-kerf; our Band Saw takes one-twelfth. This makes a saving of 229 feet of lumber on each 1,000 feet of inch boards sawed.

2d. SAVING of POWER. 3d. MAKING BETTER LUMBER. 4th. FREEDOM from DANGER.

We are also prepared to furnish our Improved Patent BAND SAW MACHINES FOR SCROLL SAWING. A Mill and the small Machines can be seen in operation at our Factory in Fort Wayne. Manufactured only by **J. R. HOFFMAN & CO., Fort Wayne, Ind.**
